

Paragraph One

- Great introductory paragraph, I love how you already include a source right off the bat that gives a bit of background to the issue to help give the reader some leeway when getting into this paper.
- The thesis statement I see is very clear and to summarize it myself it's how there has been a noticeable absence of the entertainment industry within SoCal and Hollywood, as the studios have been building locations elsewhere, which disrupts the services and economics in cities surrounding Hollywood. That's what I think the thesis statement is, if I got it right good job!

Paragraph Two

- Really amazing job including aspects of multi-modality! At times when reading essays back to back it gets kind of hard to keep going, but seeing a map that adds onto the prop houses being outside of Hollywood is very helpful. I also like how you have a small caption at the bottom of the picture, very nice.

Paragraph Three

- Another good job on multi modality, I love the use of the graph and how it shows a timespan of 2023-2025.
- I feel like this paragraph could really use a concluding sentence rather than ending the paragraph on a quote. There's a lot of quotes here, and I feel like there's not much

analysis on the quotes and what they're trying to say. For example, at the end where you end off on (Stevens and Sperling), I feel like you could add another sentence for analysis on that specific quote, then a better transition sentence to continue.

- Another good job on including multi modality, I like how you provide an analysis on what the graph is telling us, to help transition the reader.

Paragraph Four

- You do a good job on this paragraph in giving insight as to who these people are in the sources you're referencing. For example, when you say "economic researchers thorsten hennig-thurau, s. Abraham ravid, and olav sorsenson, writing in the Journal of Cultural Economics explain that..." I feel like this prepares the reader for the upcoming quote, and helps us know that it's trustworthy.

Overall Feedback

- You did a really good job on this essay! I feel like I was able to understand the points you were making, and I like the background information you give with the sources. You do an amazing job at formatting, especially with quotes and whenever you include a picture in your essay you have a caption to back it up.
- I feel like for the conclusion paragraph you could re-iterate your original thesis statement just to put readers in the right direction for what the conclusion paragraph will be about, and to have it more clear by including the reiteration of your thesis statement.

- I feel like my overall critique is to have more of your own writing backing up your quotes. Throughout the essay, I felt like I was reading a lot of quotes which is a good thing! But for the next draft, I'd try to put an emphasis on analyzing the quotes you include to have your opinion and perspective on what you're trying to convey through this essay.
